

Material Safety Data Sheet

CS: 1.4.93

Page: 1 of 4

Infosafe No™ 1JBA9	Issue Date : February 2012	ISSUED by AUTOTECH
--------------------	----------------------------	--------------------

Product Name **VIP VINYL LEATHER CLEANER**

Not classified as hazardous according to criteria of NOHSC

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name VIP VINYL LEATHER CLEANER
Company Name AUTOTECH Group Australia
Address 210 Canterbury Road Canterbury
VIC 3126 Australia
Telephone/Fax Number Tel: 1300 330 822
Fax: (03) 9888 6944
Recommended Use Vehicle interior cleaner dash & trims.

2. HAZARDS IDENTIFICATION

Hazard Classification Not Classified as HAZARDOUS according to the criteria of NOHSC. .
NON-HAZARDOUS SUBSTANCE.
NON-DANGEROUS GOODS.
Hazard classification according to the criteria of NOHSC.
Dangerous goods classification according to the Australia dangerous goods code.
Classified as hazardous according to criteria of NOHSC.

Safety

Phrase(s) S24 Avoid contact with skin.
S26 In case of contact with eye's, rinse immediately with plenty of water and seek medical advice.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	Name	CAS	Proportion
	Polyethylene	60828-78-6	20-<30 %
	Glycol		
	Trimethylnonyl		
	Ether		
	2-	112-34-5	5-10 %
	(2-Butoxyethoxy)ethanol		
	Ingredients		Balance
	determined not to		
	be hazardous.		

4. FIRST AID MEASURES

Inhalation If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.
Ingestion Do not induce vomiting. Wash out mouth thoroughly with water. If symptoms develop seek medical attention.
Skin Remove contaminated clothing. Wash affected area thoroughly with soap and water
Wash contaminated clothing before re-use or discard. Seek medical attention.
Eye If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and persist seek medical attention.
First Aid Facilities Eyewash and normal washroom facilities
Advice to Doctor Treat symptomatically.
Other Information For advice in an emergency, contact a poisons Information centre Australia 13 1126

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media Dry chemical, foam, water fog or water mist.
Hazards from Combustion Under fire conditions this product may emit toxic and /or irritating fumes including carbon monoxide and carbon dioxide.
Products Specific Hazards Combustible liquid.
Precautions in Connection with Fire Fire fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode. Water spray may be used to keep fire exposed containers cool.

Infosafe No™ 1JBA9	Issue Date : February 2012	ISSUED by AUTOTECH
--------------------	----------------------------	--------------------

Product Name **VIP VINYL LEATHER CLEANER**

Not classified as hazardous according to criteria of NOHSC

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures Increase ventilation. Evacuate all unprotected personnel. Wear full protective equipment and clothing to minimize exposure. If possible contain the spill. Spillages will be slippery. Place inert, non combustible, absorbent material; onto spillage. Use clean non-sparking tools to collect the material and place into a suitable labeled container. After clean up, wash area thoroughly with water. If the spillage enters the waterways contact the Environmental Protection Authority, or your local Waste Management Authority.

7. HANDLING AND STORAGE

Precautions for Safe Handling Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the buildup of mists or vapours in the work atmosphere. Avoid igniting vapours and mists, and skin or eye contact. Do not use near igniting sources. Do not pressurise, cut heat or weld containers as they may contain hazardous residues. Ensure a high level of personal hygiene is maintained when using this product, that is, always wash hands before eating, drinking smoking or using the toilet facilities.

Conditions for Safe Storage Store in a dry, well-ventilated area away from sources of ignition, oxidizing agents, strong acids, foodstuff, and clothing. Keep containers closed when not in use and securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks. Have appropriate fire extinguishers available in and rear the storage area. Take precautions against static electricity discharges. Use proper grounding procedures. For information on the design of the storeroom, reference should be made to Australian Standard AS1940 - The storage and handling of flammable and combustible liquids. Reference should also be made to all the applicable local and national regulations.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards No exposure value assigned for this specific material by the National Occupational Health & Safety Commission (NOHSC). As With all chemicals, exposure should be kept to the lowest possible levels.

Biological Limit Values No biological limits allocated.

Engineering Controls Provide sufficient ventilation to keep airborne levels below the exposure limits. Where vapours or mists are generated, particularly in enclosed areas, and natural ventilation is inadequate, a flameproof exhaust ventilation system is required. Refer to AS1940- The storage and handling of flammable and combustible liquids and AS/NZS 2430.3.1:2004: Classification of hazardous areas - examples of area classification - General, for further information concerning ventilation requirements.

Respiratory Protection If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable mist/particulate filter should be used. Reference should be made to Australian/New Zealand Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances

Eye Protection Safety glasses with side shields or chemical goggles should be worn. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

Hand Protection Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

Body Protection Suitable protective work wear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

Infosafe No™ 1JBA9	Issue Date : February 2012	ISSUED by AUTOTECH
--------------------	----------------------------	--------------------

Product Name **VIP VINYL LEATHER CLEANER**

Not classified as hazardous according to criteria of NOHSC

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Opaque off white liquid
Odour	Not available
Melting Point	Not available
Boiling Point	100 - 120°C
Solubility in Water	infinite
Specific Gravity	0.97 at 20°C
pH Value	Not available
Vapour Pressure	Not available
Vapour Density (Air=1)	Not available
Flash Point	130°C
Flammability	Combustible liquid
Auto-Ignition Temperature	Not available
Flammable Limits - Lower	Not available
Flammable Limits - Upper	Not available

10. STABILITY AND REACTIVITY

Chemical Stability	Stable under normal conditions of storage and handling.
Conditions to Avoid	Heat and other sources of ignition.
Incompatible Materials	Strong oxidizing agents.
Hazardous Decomposition Products	Thermal decomposition may result in the release of toxic and/or irritating fumes including carbon monoxide and carbon dioxide.
Hazardous Reactions	Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicology Information	No toxicity data is available for this specific product. The available acute toxicity data for the ingredients as published by RTECS (registry of toxic Effects of Chemical Substances) are as follows: Glycols, polyethylene mono (trimethylnonyl) LD50 (Oral, Rat): 7460 uL/kg 2-(2-Butoxyethoxy)ethane: LD50 (Oral, Rat): 4500 mg/kg
Inhalation	Inhalation of product vapours may cause irritation of the nose, throat and respiratory system. Prolonged exposure to vapours may cause somnolence, narcosis and CNS depression characterized by dizziness and headache.
Ingestion	May cause irritation to the mouth, throat, esophagus and stomach with symptoms of nausea, abdominal discomfort, vomiting and diarrhoea.
Skin	May be irritating to skin. The symptoms may include redness, itching and swelling.
Eye	May be irritating to eyes. The symptoms may include redness, itching and tearing.
Chronic Effects	Prolonged or repeated skin contact may cause defatting leading to dermatitis.

Infosafe No™ 1JBA9 Issue Date : February 2012 ISSUED by AUTOTECH

Product Name **VIP VINYL LEATHER CLEANER**

Not classified as hazardous according to criteria of NOHSC

12. ECOLOGICAL INFORMATION

Ecotoxicity Not available.
Persistence/ Degradability Product is a biodegradable surfactant (according to Australian Standard 1792:1976)
Mobility Extremely soluble in water
Environ. Protection Prevent this material entering waterways, drains and sewers.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations Disposal of spilled or waste material must be done in accordance with the relevant local and national government regulations.

14. TRANSPORT INFORMATION

Transport Information This material is a class 3 - Flammable liquid according to the Australian Code for the transport of dangerous goods by road and rail. (7th edition)

15. REGULATORY INFORMATION

Regulatory Information Not Classified as Hazardous according to criteria of National Occupational Health & Safety Commission (NOHSC), Australia.
Not Classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).
Poisons Schedule Not Scheduled

16. OTHER INFORMATION

Date of preparation or last revision of MSDS MSDS Reviewed: February 2012
MSDS Supersedes: February 2009

Contact Person/Point DISCLAIMER: The company has taken care in compiling this information. No liability is accepted whether direct or indirect from its application since the conditions of final use are outside the Company's control. The end user is obliged to conform to relevant government regulations and/or patent laws applicable in their respective States of Countries.
