Infosafe No™ LPZBD

Issue Date :July 2012

ISSUED by MOTORONE

Product Name STREETWISE SURFACE COATING

Not classified as hazardous according to criteria of NOHSC

# 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name STREETWISE SURFACE COATING

Company NameMotorOne Group Pty LtdAddress275 Canterbury Road Canterbury<br/>VIC 3126 AustraliaTelephone/FaxTel: (03) 8809 2700NumberFax: (03) 9888 6944Recommended UseSpecialty Chemical.

### 2. HAZARDS IDENTIFICATION

Hazard Classification NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS. Hazard classification according to the criteria of NOHSC. Dangerous goods classification according to the Australia Dangerous Goods Code.

### **3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Ingredients       | Name   | CAS   | Proportion |
|-------------------|--|-------|------------|
| Other Information | Ingredients<br>determined not to<br>be hazardous | -     | 100%       |
| Other Information | Contains > 80% distilled w                       | vater |            |

4. FIRST AID MEASURES

| Inhalation                            | If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.   |
|---------------------------------------|--|
| Ingestion                             | Do not induce vomiting. Wash out mouth thoroughly with water. If symptoms develop seek medical attention.  |
| Skin                                  | If skin or hair contact occurs, remove contaminated clothing and Wash affected area thoroughly with soap and water. If symptoms develop seek medical attention.  |
| Eye                                   | If in eyes, hold eyelids apart and flush the eyes continuously with running<br>water. Continue flushing for several minutes until all contaminants are washed<br>out completely. If symptoms develop and persist seek medical attention. |
| First Aid Facilities                  | Eyewash and normal washroom facilities   |
| Advice to Doctor<br>Other Information | Treat symptomatically.<br>For advice in an emergency, contact a poisons Information centre Australia 13 1126   |

# **5. FIRE FIGHTING MEASURES**

| Suitable                            | Use carbon dioxide, dry chemical and water fog.  |
|-------------------------------------|--|
| Extinguishing Media<br>Hazards from | Under fire conditions this product may emit toxic and/or irritating fumes.   |
| Combustion                          |  |
| Products<br>Specific Hazards        | This product is non-Combustible liquid.  |
| Precautions in connection with Fire | Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated<br>in positive pressure mode and full protective clothing to prevent exposure to<br>vapours or fumes. Water spray maybe used to cool down heat-exposed<br>containers. |

Product Name STREETWISE SURFACE COATING

Not classified as hazardous according to criteria of NOHSC

#### 6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures Wear appropriate personal protective equipment and clothing to minimize exposure. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labeled container. Do not dilute material but contain. Dispose of waste according to federal, Environmental Protection Authority and state regulations. If the spillage enters the waterways contact the Environmental Protection Authority, or your local Waste Management Authority.

## 7. HANDLING AND STORAGE

| Precautions for Safe       | Use only in a well ventilated area. Keep containers sealed when not in use.   |
|----------------------------|---|
| Handling                   | Prevent the build up of mists or vapours in the work atmosphere. Avoid  |
| 0                          | inhalation of vapours and mists, and skin or eye contact. Maintain high<br>standards of personal hygiene i.e. Washing hands prior to eating, drinking,<br>smoking or using toilet facilities. |
| <b>Conditions for Safe</b> | Store in a dry,well ventillated area out of direct sunlight . Store in suitable,  |
| Storage                    | labelled containers. Keep containers closed when not in use. Ensure that storage conditions comply with applicable local and national regulations.  |

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| National Exposure<br>Standards | No exposure value assigned for this specific material by the National<br>Occupational Health & Safety Commission (NOHSC), Australia. However, the available   |
|--------------------------------|---|
|                                |   |
| <b>Biological Limit</b>        | No biological limits allocated.   |
| Values                         |   |
| Engineering                    | Use with good general ventilation. If mists or vapours are produced local   |
| Controls                       | exhaust ventilation system is require.  |
| Respiratory                    | If engineering controls are not effective in controlling airborne exposure  |
| Protection                     | then an approved respirator with a replaceable mist/particulate filter should<br>be used. Reference should be made to Australian/New Zealand Standards AS/NZS<br>1715, Selection, Use and Maintenance of Respiratory Protective Devices; and<br>AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary<br>changes for individual circumstances |
| Eye Protection                 | Safety glasses with side shields or chemical goggles should be worn. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.  |
| Hand Protection                | Wear gloves of impervious material. Final choice of appropriate gloves will<br>vary according to individual circumstances i.e. methods of handling or<br>according to risk assessments undertaken. Reference should be made to AS/NZS<br>2161.1: Occupational protective gloves - Selection, use and maintenance.   |
| Body Protection                | Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist<br>is recommended Industrial clothing should conform to the specifications<br>detailed in AS/NZS 2919: Industrial clothing.   |

| 9. PHYSICAL AND              | CHEMICAL PROPERTIES    |
|------------------------------|------------------------|
| Appearance                   | liquid                 |
| Odour                        | Not available          |
| Melting Point                | Not available          |
| <b>Boiling Point</b>         | 100°C                  |
| Solubility in Water          | Soluble                |
| Specific Gravity             | 1.0                    |
| pH Value                     | Not available          |
| Vapour Pressure              | Not available          |
| Vapour Density               | Heavier than air.      |
| (Air=1)<br>Evaporation       | Slower than either     |
| Rate<br>Flash Point          | Not available          |
| Flammability                 | Non-combustible liquid |
| Auto-Ignition<br>Temperature | Not applicable         |
| Flammable Limits –<br>Lower  | Not available          |
| Flammable Limits -<br>Upper  | Not available          |

## **10. STABILITY AND REACTIVITY**

| Chemical Stability                      | Stable under normal conditions of storage and handling. |
|---|---|
| Conditions to Avoid                     | None known.   |
| Incompatible<br>Materials               | None known.   |
| Hazardous<br>Decomposition              | None known.   |
| Products<br>Hazardous<br>Polymerization | Will not occur.   |

# **11. TOXICOLOGICAL INFORMATION**

| Toxicology<br>Information | No toxicity data is available for this specific product.                                       |
|---------------------------|--|
| Inhalation                | Inhalation of product vapours may cause irritation of the nose, throat and respiratory system. |
| Ingestion                 | Ingestion of this product may irritate the gastric tract causing nausea and vomiting.          |
| Skin                      | May be irritating to skin. The symptoms may include redness, itching and swelling.             |
| Eye                       | May be irritating to eyes. The symptoms may include redness, itching and tearing.              |
| Chronic Effects           | Not available  |

## **12. ECOLOGICAL INFORMATION**

| Ecotoxicity         | No ecological data are available for this material.          |
|---------------------|--|
| Persistence /       | Not available.   |
| Degradability       |  |
| Mobility            | Not available  |
| Environ. Protection | Prevent this material entering waterways, drains and sewers. |
