Add gloss and shine to your pre-owned vehicles with Reload

- A complete rejuvenation and protection program for pre-owned vehicles.
- Specifically designed for the treatment and protection of pre-owned vehicles aged between 12 months – 10 years old
- No annual inspections and no re-applications
- Reload coatings are environmentally friendly, water-based formulas
- Reload comes with a pro-rata warranty* covering your vehicle to 10 years of age

The proof is in the paint.

Reload Paint Surface Coating

BENEFITS

- Reload includes a UV protectant to prevent fading, discolouration and oxidisation
- Helps prevent damage caused by tree sap, bug splatter, bird & bat droppings
- Non-stick properties make vehicle maintenance easier and reduces the adhesion of contaminants
- The enhanced resin ingredient in Reload gives your vehicle a durable brilliant shine

WARRANTY*

- Reload comes with a pro-rata warranty covering your vehicle to 10 years of age
- National warranty coverage
- No annual inspection requirement

*Terms, conditions and exclusions apply.

How Reload

Paint Surface Coating Works

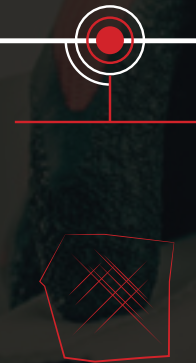

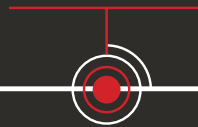

The enhanced resin coating is applied, restoring gloss and creating superior protection against damaging UV and environmental contaminants.

The result is an outstanding and long-lasting shine backed by a nationwide warranty* for peace of mind.

Diagnosis of the paintwork by a trained Reload technician - deep clean using the Reload preparation process to remove oxidisation and pollutants.

The preparation of the paintwork by removing micro surface marks and restoring paint gloss is the key to the Reload enhancement program.
