

ANTIMICROBIAL

AIR CONDITIONING INTERNAL TREATMENT

PROTECT YOUR FAMILY'S HEALTH AGAINST INFECTIOUS VIRUSES AND BACTERIA.

Antimicrobial cleans, sanitises and disinfects your car air conditioning system, removing odours as well as bacteria, mould and micro organisms from your car's interior. Antimicrobial provides a long lasting barrier for re-generation of bacteria, and provides a deodorising, fresh fragrance.

REMOVES
BACTERIA & MOULD

INHIBITS
BACTERIA GROWTH

ELIMINATES
UNPLEASANT ODOURS

ELIMINATE GERMS AND BACTERIA WITH AN ANTIMICROBIAL TREATMENT FOR YOUR CAR.

Your car is a breeding ground for germs and bacteria, particularly in air-conditioning and heating systems when turned on airborne bacteria and allergens can get blown straight into your face.

Studies have shown that your vehicle is one of the unhealthiest environments, with you and your family being exposed to so many different strains of bacterial viruses daily.

Antimicrobial is an environmentally friendly, water-based solution that forms an invisible, long lasting barrier that actively protects surfaces from the build-up of organic matter including bacteria, moulds, germs and allergens.

YOU CAN'T SEE THEM, BUT MICROSCOPIC BACTERIA ARE BREEDING IN YOUR CAR INTERIOR.

Pollutants such as germs, bacteria, infectious disease, mould spores, mildew, viruses and pet odours ride in your vehicle with you and your family on a daily basis.

Advancements to our Antimicrobial bacti-bomb provide you with a high performance cleaning solution directed toward fighting in-car air and surface pollution, without the use of harmful chemicals. Antimicrobial works rapidly and effectively to naturally decompose all vehicle odours, while thoroughly ridding your car of these infectious bacteria strains.

One treatment will help provide you an odour-free, germ-free and allergen-free vehicle, giving you peace of mind and a healthier environment.

WHY INVEST IN AN ANTIMICROBIAL AIRCONDITIONING INTERIOR TREATMENT

- Kills off bacteria, mould, germs and allergens
- Cleaner air through the air vents in your car
- Keeps working long after treatment
