

# HYDRO<sup>G9+</sup>

## HEAVY HITTING PROTECTION

NEW FORMULA CERAMIC PAINT PROTECTION **WITH GRAPHENE.**  
**NOW TOUGHER THAN EVER.**

### EXTREME HARDNESS & RESISTANCE

**HYDRO<sup>G9+</sup>** with graphene, now delivers increased abrasion resistance which means the coating is not broken down by weathering, dirt and road grime. Stronger bonding, hardness, and outstanding durability, **HYDRO<sup>G9+</sup>** with graphene outperforms and outlasts most other paint protection products.

### EXCEPTIONAL THERMAL PROPERTIES

**HYDRO<sup>G9+</sup>** thermal (heat) properties are found to be approximately double that of conventional ceramic coatings, resulting in exceptional durability and protection for your vehicle's paintwork.

### ADVANCED TESTING TECHNIQUES

300 hours of **Extreme Weather** testing

100 hours of **Accelerated UVB** testing

168 hours of **Salt Spray Corrosion** testing<sup>^</sup>

168 hours of **Chemical Deterioration** testing\*

### A NEW HYDROPHOBIC INTELLIGENCE

**HYDRO<sup>G9+</sup>** with graphene delivers super hydrophobic properties creating an easy-clean low maintenance surface. Engineered with nanotechnology to produce distinctive beading which rolls off the surface helping take away dirt, dust & road grime.

<sup>^</sup> Tested for rust defence

\* Ethanol, NaOH,  $\text{H}_2\text{SO}_4$

# EXTERIOR PROTECTION

WHEN YOU NEED IT MOST

## PROTECTS AGAINST:

- Weather induced oxidation, fading and loss of gloss
- Bird and bat droppings
- Tree sap
- Bug splatter
- Bore water
- Water marks
- Sunscreen
- Rail dust
- Fallen leaves
- Clear coat delamination (limited 6 year warranty for vehicles less than 12 months old at date of application).

**HYDRO<sup>G9+</sup>** delivers exceptional levels of hardness which translates to increased resistance to the elements and UV stability offering greater defence against fading and oxidation of clear and base coats. This newly formulated surface coating bonds deeper into the vehicle's paintwork, is noticeably smoother to the touch and optically brighter.

## PROTECTS AGAINST:

- Food stains
- Drink stains
- Discolouration^
- Dehydration
- Make-up
- Sunscreen
- Mould and mildew growth

**HYDRO<sup>G9+</sup>** interior product range includes newly formulated protective coatings for leather, vinyl, plastics, fabric and carpet. These interior surface coatings ensure maximum stain resistance plus protection from the damaging effects of UV, resulting in complete peace of mind that your vehicles interior is fully protected.
